Complete your orientation experience and begin the semester relaxing with new friends at the IMAX

**IMAX film: “Pandas”**

Pandas are beloved around the world, and now they can be seen in a breathtaking documentary adventure and amazing experience.

At Chengdu Panda Base in China, scientists are dedicated to protecting the species by breeding adult Giant Pandas in order to introduce cubs into the wild. This film follows one such researcher, whose passion leads her to initiate a new technique inspired by a black bear program in rural New Hampshire. What starts as a cross-culture collaboration becomes a life-changing journey for an American biologist who crosses an ocean to join her; a scientist from Inner Mongolia; and a very curious female cub named Qian Qian, born in captivity.

Join Qian Qian on an exciting new adventure in the mountains of Sichuan as she takes her first steps outside her protected habitat, discovering her true animal nature...even as she faces the challenges of the unknown.

**Date:** Sunday, August 19, 2018
